

Northwest Family Services, Inc.

NFS is one of the major youth and family agencies in Northwest Oklahoma. NFS is incorporated as a non-profit 501©(3) organization. NFS has a Board of Directors who are representative of key institutions and community agencies in the service area.

The agency has developed a professionally and fiscally sound profile in the communities of Alva, Cherokee, Fairview and the surrounding areas.

Northwest Family Services has been providing critical prevention and diversion services since 1977 at no cost to the children and families in Woods and Alfalfa Counties and more recently in Major county.

The staff at NFS completes training and maintains certification in their area of expertise. NFS maintains full certification with Oklahoma Association of Youth Services (OAYS), is nationally accredited through CARF to provide Behavioral Outpatient Services, and is licensed as a Child Placing Agency through the Oklahoma Department of Health to provide shelter services.

Individual & Family Counseling

Behavioral Health Outpatient Program

Provides services to youth, their family members and/or significant others who have, or who are at risk of, psychiatric disabilities and/or disorders, harmful involvement with alcohol or other drugs, and/or those who are experiencing other behavioral health needs. Through a team approach, the goal of the BHOP and its services is to improve the quality of life and functional ability of the persons served within a framework of cultural competence and relevance. All BHOP services are provided by licensed and/or credentialed personnel who maintain high levels of professional competency within the established and accepted standards of practice in the field. Referrals are made for individuals whose needs are beyond the scope of services provided by NFS.

This program serves youth ages of 5-17 at the time of admission and/or for adults who have children and/or are the primary caregivers of children.

Community

Resource Program

Community Resource Coordinator (CRC) works closely with school counselors and community members to identify youth ages 13-18 years old who are runaway, homeless or at risk/unhealthy family situations. The CRC then works directly with these youth to assess and further develop coping skills through the provisions of resource information, one-on-one planning sessions and group classes.

Emergency Host Home &

Foster Care

Provides temporary, intermediate, and long term care of children ages 0-17 years due to an exceptional incident or traumatic event which prohibits the safe return of a child to his or her own home. Overnight services are provided by Host/Foster homes located in the community.

TSET Healthy Living Program

The TSET Healthy Living Program is a community-based grant that promotes healthy living throughout our communities. The program works to prevent and reduce tobacco use, increase physical activity, and improve nutrition. Our goal through the work we do is to create and support an environment where the healthy choice is the easy choice and healthy options are available and accessible. We work with cities, businesses, schools, community organizations and institutions to help meet these goals.

Positive Turning Points

First Time Offender Program

12 hour curriculum-based program for adolescents, preteens, and their parents. Referrals are received for this program from the Juvenile Services Unit, District Attorney's Office, school or family members. Curriculum covers:
Program Philosophy and Adolescent Development
Communication
Emotional regulation
Smart choices
Values and cultural awareness

Parenting Through Separation & Divorce

Court mandated 3-hour program for divorcing parents. This program focuses on understanding and meeting the child's needs throughout this difficult transition, including emotional stages, appropriate responses, pain games, communication, problem solving, and future resources.

parentPRO PAT

Home visitation and community-based services program that teaches positive parenting skills and connects families with resources that help reduce the risk of child abuse and neglect. Serving expectant parents and parents of infants - age 5.

Promotes positive parent-child interaction

Promotes healthy childhood growth and development

Enhances family stability

Provides child development screenings

Center-based parent education and support

Community Outreach

Community Education

Information and Referral Services

Within My Reach

15 hour group based curriculum designed to help individuals recognize and build healthy, happy relationships. The program helps participants identify the four essential safety factors of a healthy relationship, recognize signs of an unhealthy relationship, and enhance communication skills.
